2021,

Lab 5:

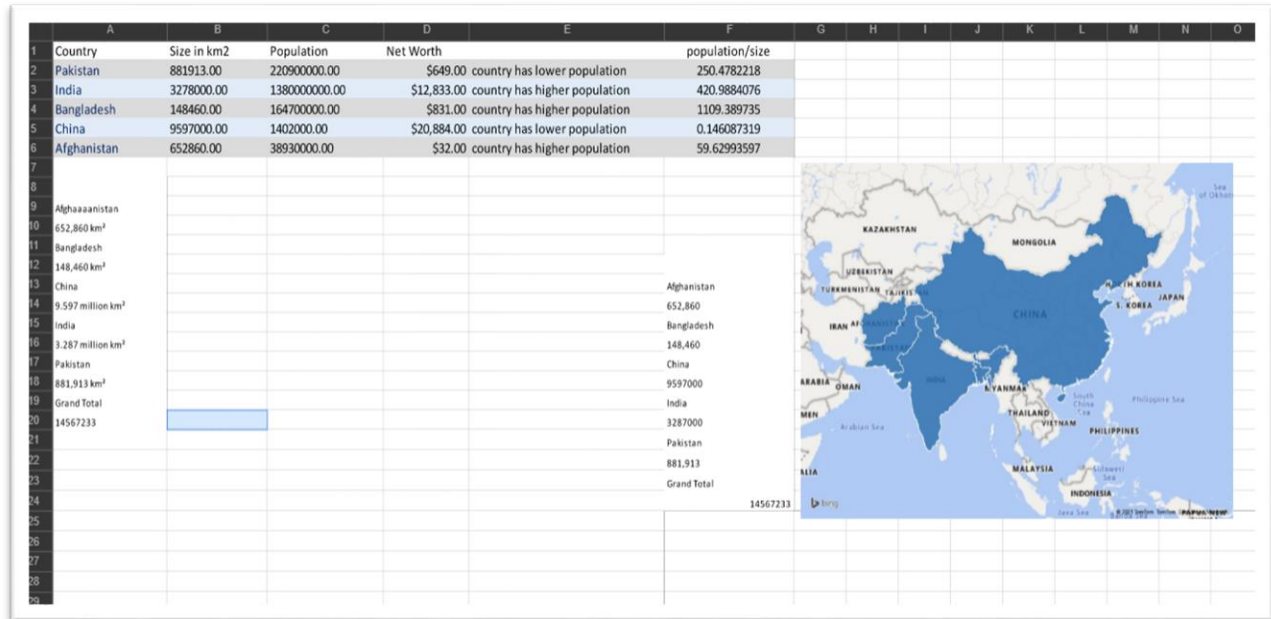

Introduction to Microsoft Office (Part 3 Microsoft Excel)

Lab Tasks:

Create an Excel Workbook in Microsoft Excel. The Presentation must have the following feature:

- 4 columns named Country, Size, Population, Net worth
- Input data of at least 5 countries, means 5 rows
- Insert a World Map Chart
- Insert a Pivot table with two columns country and size
- Insert a background image in your work sheet
- Also, in any empty cell using functions make condition if population of country 1 is lower than country 2 if it's true it should display "Country has lower population" if false it should display "Country has higher population".
- Also Insert a 5th column which has a Function/formula that calculates population divide by size for each country.
