Fall 2021,

Lab 9:

Introduction to HTML Forms and CSS Basics

Lab Tasks:

Make a webpage according to the diagram in the image below

Create an HTML webpage like the design and instructions mentioned below:

Heading

Biocdata

Name:

Roll No:

User name:

password:

Gender: ☐ male ☐ female

Courses: ☐ computer fundamentals ☐ computer fundamentals lab

Are the courses easy? ☒ yes ☐ no

Test fields

password field

drop down menu with two option

checkbox boxes

radio button

button that calls your javascript function when you press it should display all the data entered on the webpage & reload the form (Simply form)

sample output

```
Abdullah Ahmad
13PWCE1111
Abc
123
Male
```

"No need to display checkbox and radio output"

NOTE: Your page must have a background (color or image), also your page font should be courier, font color should be any color matching your background (not black default font color) and everything on the page should aligned to the center, all this should be done through CSS (internal only). Also, you must use "CLASS SELECTORS" in CSS.

This Lab task should be uploaded as an HTML FILE. The Picture(s) (if you have used any) should also be uploaded so that I could check it properly.
